## Advanced Post Builder Techniques

fAnything YOU write will over-ride the UGS post-builder created code fIf they have a bug, or don't do what you want, you don't have to edit the post's tcl file every time you save it. fBy "source"ing your other (shared) files at the beginning of the \*\_user.tcl fIf a post need to over-ride one or two procs in the common

## nx post builder reference

As far as I know there is no more detailed manual. There is training. A little bit in Learning advantage (not the post itself, but some of the customization you may do in conjunction with post development)

## NX9 Post Builder

I finally got NX 9 installed and was anxious to test out Post Builder. The object I was most interested in was a Table/Table Fanuc 30i 5 axis post. I decided to create a very generic post to check out it's new functionality. Well I guess bringing the 30i in Post Builder up to snuff wasn't in the cards. I don't know what to conclude.

## NX CAM – Siemens Sinumerik Post Builder

NX CAM – Siemens Sinumerik Post Builder. machining are Sinumerik NC statements that the postprocessor now generates for . complex machining operations. The value of enhanced postprocessing. NC programmers have become accustomed to the user-friendly modeling and programming tools provided by NX CAD and NX CAM. Now, with a Sinumerik

## About seimens nx 7.5 post builder

HI GUYS, My self Dalip and i am professionally Machinist and i am using seimens nx 7.5 and i am exiting the codes according to post process file that i am created in the Post builder. but while i input the created .pui extension post file i have faced the problem. and the codes are not generated. i gonna upload the image file that i am take this while i face that damage problem..
